PROFESSIONAL SUMMARY	I'm a Dhaka-based web developer building fast, accessible websites and web apps with JavaScript, React, Next.js, and Astro. I have built client sites, product pages, and 11+ commercial themes used in production with consistent 90+ PageSpeed scores. I also core-maintain Open Remark, a self-hostable open-source comment system for static sites.		
CORE COMPETENCIES	React & Next.js, Astro & Static Sites, Web Performance, Figma to Responsive UI, CMS Integration		
WORK EXPERIENCE	Zeon Studio	Dec 2024 - Aug 2026	
	Web Application Developer		
	- Delivered client web solutions on schedule: marketing sites, Webflow builds, CMS integrations, performance optimization, and web audits. - Built in-house web apps and product landing pages, and core-maintained the open-remark comment system across Astro, Hugo, and Next.js.		
	Themefisher	Mar 2024 - Aug 2026	
	Frontend Developer		
PROJECTS	- Developed 11+ high-performance commercial themes for Next.js, Astro, and Hugo, including Optimize, Secury, Mobit, and Cloudpeak. - Agencies and SaaS teams run them in production; the portfolio holds consistent 90+ PageSpeed scores.		
	IRD Foundation	Feb 2023 - Jan 2024	
	Intern Web Developer		
	Made the QuranMazid web app render noticeably faster and built a responsive site for IRD.		
	Open Remark (Core maintainer)		
Self-hostable, open-source comment system for static sites across Astro, Hugo, and Next.js with minimal setup. Core-maintained at Zeon Studio as an in-house open-source tool.			
Seoptic Nextjs (Creator)			
Conversion-focused SaaS theme for SEO platforms and analytics dashboards. One of 11+ commercial themes for Next.js, Astro, and Hugo holding consistent 90+ PageSpeed scores.			
Sitepins (Developer)			
Marketing site and product landing pages for Sitepins, a git-based CMS for managing static-site content with a visual editor. Built at Zeon Studio.			
Quran Mazid (Developer)			
Online Quran reader with 40+ translations, tafsirs, word-by-word breakdowns, and audio recitation.
